Crossing Accident Claims Two Lives

Former Local Girl Wed In Salt Lake

A very pretty late summer wedding took place September 12th at the home of Mrs. Ida Greene of Salt Lake City, when her son Jay L. Greene took as his bride, Verly, youngest daughter of Mrs. Emily Rolison and the late F. B. Rolison of Raymond. Bishop T. Mainwaring officiated at the ceremony.

The lovely home was decorated with flowers and the ceremony took place in front of the decorated fireplace.

The bride was charming in a gown of cocoa brown with matching hat and veil with a corsage of fall roses. Mrs. Ruby Gaulay, friend of the bride of B.Y.U. day was the brides only attendant in the room was supported by her brother Merrill Greene.

The brides mother chose for the occasion a wine velvet gown with gardenia corsage, while Mrs. Greene was in pink flowered crepe with gardenia corsage.

At the wedding supper a beautiful cake centered the table and fifty guests were present.

Death came Sunday to another of Raymond's pioneers, Mrs. Josephine Palmer Litchfield, in her 87th year. For the last few months, grandma Litchfield had been in very poor health and her passing was not unexpected.

Born in Ogden, Utah, she came with her husband to Raymond in 1903 and has since resided here where she has raised a fine family of seven sons, six of them residents of Raymond, Percy, Floyd, Reid, Millicent, Ernest and Carlyle and one Joseph of Purple Springs. She also leaves 36 grandchildren and 18 great grandchildren. She was predeceased by her husband in 1924.

Funeral services were conducted Tuesday afternoon at the Stake House with Bishop J. O. Hicken in charge. Favorite hymns were sung by the choir under the leadership of Eleanor Hudson assisted by Mrs. Ethel Tollestrup at the organ. Opening prayer was by Heber F. Allen.

Speakers were I. B. Roberts, who for forty years who spoke of her quiet love for her family and friends, of her quietness that endeared her to all; and T. George Wood who had known her and her sons for many years. Joseph McLean sang "One Fleeting Hour" and Mrs. Marie Mathin rendered a vocal solo.

Granddaughters carried the many beautiful floral tributes. Benediction was by Bishop J. Golden Snow.

Palibearers were all grandsons, Douglas, Glen, Gerald, Ruten Litchfield of Raymond, and Dean and Melvin Litchfield of Purple Springs.

Interment was in the local cemetery with Elder Clarence Alfred dedicating the grave.

Many relatives and friends attended from Taber, Cardston, Stirling, Picture Butte, Wilson and surrounding districts.

Three grandsons of the deceased are laboring as missionaries and were unable to be present, Glen Litchfield in Samoa, Grant in New Zealand and Roy in Eastern Canada. Two other grandchildren raised by Grandma Litchfield when their mother died were unable to attend, Winifred who is attending Queens University and Mrs. Velma Severson of Montpelier, Idaho who gave birth to a son the day of the funeral.

Arthur Jensen and J. LeRoy Anderson were instantly killed today, Friday, when the car in which they were riding was struck by the north bound diesel train at the Craddock crossing east of Raymond.

The accident occurred between 2:30 and three o'clock.

Travelling east in Mr. Jensen's car neither apparently saw the train and the car was struck in the right side and carried 451 feet up the track before the train was halted. It is believed death was instantaneous. The car was demolished.

The community is shocked at the tragic deaths of these well known men. Both owned fine farms here and homes in town. They were very active in civic and church affairs. It is believed that they were on their way to New Dayton or Warner to obtain sewer pipe or fitting which Mr. Jensen was looking for, and Mr. Anderson went with him as he knew where it could be had and he could not find it for Mr. Jensen.

The young couple received many gifts. After a short honeymoon they have taken up residence in Salt Lake City.

Verly many friends here in Raymond wish her much joy in her new life.

CAN YOU BE A BLOOD DONOR?

Volunteer canvassers will call on you next week to collect the names of those in your household willing to be volunteer blood donors. We appeal to you to spare the canvasser a few minutes of your time.

1. WHAT AM I ASKED TO GIVE?

It is within your power to save life, for in your body is the one commodity that cannot be manufactured, an element that has saved more lives than any drug—BLOOD.

2. WHY AM I ASKED TO GIVE?

The Canadian Red Cross Society is pledged to supply, free of charge, all blood and plasma used in Alberta

hospitals. They collect, test and distribute all the donations of blood. The success of this free transfusion service depends entirely on volunteer blood donors.

3. HOW MUCH AM I ASKED TO GIVE?

Less than 13 ounces. You have approximately 200 ounces of blood in your body.

4. WHO BENEFITS BY MY GIFT?

Every man, woman and child in Alberta receives free blood transfusions when needed.

5. DOES ANYONE HAVE TO PAY FOR MY GIFT?

No! Your gift and the transfusion equipment are supplied without charge.

6. WHO MAY DONATE?

If you are

between 18—65 years of age and in average health, you may be a blood donor.

7. IS DONATING BLOOD A PAINFUL ORDEAL?

No! There is no discomfort experienced in giving a blood donation.

8. HOW WAS BLOOD OBTAINED BEFORE THE RED CROSS ORGANIZED THIS SERVICE?

By paying for each transfusion or frantically appealing to relatives, friends or the public after the need arose and often too late.

9. HOW MANY DONATIONS OF BLOOD ARE NEEDED?

A minimum of 1,000 a month for Southern Alberta.

10. DOES THE PROVINCIAL GOVERNMENT ASSIST THIS SERVICE?

Yes! They provide the buildings used as depots. There are two in Alberta.

The short time it takes to give a blood donation may be magnified in years of life for some sick or injured person.

Tomorrow your donation may help save the life of your friend, your neighbor or even a member of your own family.

If you cannot be a donor—be a booster.

Confederation as soon as possible. It is evident that these discussions expected to last several weeks at least are going "well".

SIGNIFICANT SIDELIGHT

It was only a comment but it has started something. When F. P. Varcoe, Deputy Minister of Justice pleaded a case on behalf of the Canadian Government before the Supreme Court of Canada here, he stated among other points that "the Fathers of Confederation had envisioned a more flexible constitutional instrument for Canada than the B.N.A. Act had been permitted by the courts in past years", holding the parliament rather than the courts should make constitutional changes.

The United States constitution is being re-written by the United States

Supreme Court from time to time and our Privy Council has been doing pretty much the same thing for Canada as to our constitution," remarked Chief Justice Thibault Rinfel.

In view of the demands in Parliament in recent sessions for the abolishment of appeals to the Privy Council in England and to make Supreme Court here the last resort as well as the resolution passed at the national convention of the Liberal Party here favoring such a this comment has aroused much interesting speculation in the capital.

GOOD NEWS

With the cost of living still climbing upwards, there is good news back stage in this nation's capital for those taxpayers who have been growling about the load of taxes which they must carry since it is whispered loudly now that some relief in this respect is a relative certainty. When Finance Minister Abbott brought down his budget last spring and allowed only \$73,200,000 in tax cuts in face of record surplus of 772,000,000 countless Canadians were extremely disappointed. However, at that time he estimated that this year's surplus would be about \$189,000,000 but it is learned now that this estimate will be exceeded by an unusually large margin, having been covered at least 90% or more at the end of the past month, though it is still far away from the end of the fiscal year next March 31.

Under these circumstances and in face of forecasts that the Government is waiting for real big tax cuts to be made just prior to the next general election, it is whispered along Parliament Hill now that substantial tax relief is going to be provided in the next budget on account of the widespread demands for such action, including recent clamor at the two national political gatherings here and the unexpectedly large surplus which has been obtained this year.

THREE OF 487 POOL COUNTRY ELEVATORS

The Alberta Wheat Pool started in business on October 29, 1923. Its first office was staffed with only 15 employees, and furnished with second-hand equipment.

Today the Alberta Wheat Pool is the largest Alberta business. Its assets include 487 country elevators and two terminals with a total grain capacity of 37,000,000 bushels.

The Alberta Wheat Pool has paid patronage dividends, over the years, to a total of \$3,724,180.15 in cash and has redeemed reserves from original Pool members to a total of \$4,468,883.85.

Alberta Pool Elevators has provided excellent service to patrons and has gained a high reputation for fair dealing. The system has handled as much as 52,000,000 bushels of grain in a single year.

All these, and many other accomplishments, have been achieved by the Wheat Pool members, who have rendered such loyal and devoted service to their own organization over a quarter of a century.

Nothing can take the place of this farmer-owned co-operative in providing security and the preservation of hard-won rights and privileges for the grain producers of this province.

Lethbridge Experimental Station Weekly Letter

The annual preparation for winter is only possible to include a few of these recommendations here. Those seeking more detailed information should write to the Experimental Station at Lethbridge.

The garden should be covered with well rotted manure and then plowed. That insures excellent fertility and tillth the following season.

Roses, especially the hybrid tea and other tender types, that are not up and pined in the root cellar should be mounded with moist soil to at least two-thirds of the distance up the plant. The plants should not

be covered entirely as they suffocate easily and die.

Chrysanthemums that have not proven their hardiness in this area should be covered with enough straw or similar insulation material so as to hold the snow or frost during mild spells in the winter.

Small fruits such as strawberries and raspberries need some attention before winter sets in. The strawberries should be covered with a deep layer of straw or similar plant protection after the first fall of snow or when the ground is frozen. Raspberries also require covering. Just prior to covering, the canes that fruited this year and the surplus new canes should be removed leaving only six or seven canes to a hill. When pruning is completed the remaining canes are bent over a big shovel full of soil along the direction of the row and completely covered with moist soil. Straw can be used to cover the raspberries if a shovel full of soil is placed on the tips of the canes to hold them down.

ing of the lawn with a blood compost. As a final recommendation, cover with insure a richer, more beautiful lawn next season. This compost should be worked into the lawn during the mild spells in the winter.

FOR PARENTS ONLY By—NANCY CLEAVER

GUEST OR PEST

"I want my child to be a guest, not a pest!" one poor mother exclaimed.

"But I've decided that visiting with a pre-school youngster is not much of a trial on my relatives, my child and on me too. I think I'll wait for him to go visiting until he is older. If relatives are understanding, if they like children, it is possible to have a happy visit, but it should be of a definite duration and preferably a short one. It is always wise to leave when one's host and hostess are sorry to say goodbye."

A child's schedule should be observed as far as eating, sleeping and play go, but details can be a bit flexible while visiting. If an Aunt or Uncle or older friend offer to take a child for a walk or to visit a park or playground, do accept the offer. A child and an adult who are attracted to each other can have a grand time on "a spree". Don't worry about your child's actions—he will likely be on his best behavior when your watchful eyes are no longer observing his.

STARTLING FACT! More people buy and enjoy Maxwell House than any other brand of coffee in the world at any price! For gloriously rich and mellow coffee say "Maxwell House."

His name may be George Wilson, Patrick O'Reilly or Emile Leg. He may be a farmer, a lawyer, a carpenter, a real estate agent, a banker, a teacher or one of our own employees. His wife or mother might be a shareholder. He and about 5,000 other Canadians from all walks of life are the owners of Dominion Textile Company Limited. Last year, among them, they did \$57,838,394 worth of business. That was the company's total income for the year.

Let's simplify it and say each Average Shareholder did \$11,567.67 worth of business. That was the money he took in. Now let's look at what he spent to get that money. Here it is, roughly calculated, for the average shareholder.

conduct! It is real adventure when a boy or girl is old enough to go on a visit all alone. An older child may be a bit homesick. But learning to be happy away from home is a valuable experience in the long slow process of growing up—of learning to stand on one's own feet.

One small girl, who for her age, was a particularly nice guest, who, visiting her aunt, was asked if she missed her parents. She replied: "I think about them, but I don't fuss about them. Mother doesn't want me to be a 'fusser'."

A child on a visit should be encouraged to be a considerate and appreciative guest, fitting in with the family's plans and causing as little trouble as possible. Visitors should be on time for meals and should eat what they are served. They should be thoughtful in using the bathroom the phone and the radio. Their host and hostess will look to them to join in the conversation without arguing too much or talking all the time.

A boy or girl learns the art of being a good guest—one who is asked back—by having the chance to put into practice his mother's and dad's good advice.

The writing of a little thank you note or "bread and butter letter" by a visitor as soon as he has returned home, expressing appreciation to those who have entertained him is very important. It is something every visitor who can write should do no matter how young or old. This little courteous letter gives real pleasure to those who have gone to the trouble and expense of having a visitor in their home.

HIGHER WHEAT PRICES FOR FARMERS

Last year the bulk of Canadian wheat was sold at the fixed price of \$1.55 basis No. 1 Northern Fort William. Our farmers were paid on that basis. This year the bulk of Canadian wheat is being sold again to Britain and for domestic purposes at the increased price of \$2.00 a bushel, but farmers are still being paid on last year's lower price, namely \$1.55 a bushel. If farmers were paid on the basis of the full price last year, surely they could be paid in the same way this year, for this would still leave considerable sums

in hand with the Wheat Board from the sale of Class 2-B wheat for reserves. Our farmers, I suggest, need now all the money they can obtain to rehabilitate their farms and to purchase the very latest labour-saving machinery. It seems to me, for one at least, that the extra 45 cents a bushel—which by the way is the farmer's own money—now being withheld by the Government, would do more good to the agriculture of Canada in the farmer's own pocket NOW than it would resting in the Treasury of the Dominion Government until some time after the year 1950.

sent at the coming session. It is understood along parliament hill, the stories of his entry into the House through certain constitutionalities are discounted here. It is recognized that he will be very careful in choosing a riding for this purpose bearing in mind that a defeat would be a possible disaster for him personally. The case of Rt. Hon. Arthur Meighan in the by-election in York South on February 9, 1942, is recalled when the Conservative leaders career was practically ended as the result of his defeat by J. W. Noseworthy of the CCF.

In any event, it is understood here that Premier Drew is planning to get into the House and that he will contest a seat in time to be leading his party when the next session gets underway, probably towards the end of January, with gossip behind the scenes on Parliament Hill being that he will have a fight on his hands in this contest as both Liberals and CCF are said to be ready to oppose him.

"EXODUS" - the story of the crossing of the plains

November 7th in the Stake House the four Raymond wards and Stirling ward are presenting the Cantata "Exodus", the story of the Marmos crossing the plains to Salt Lake.

This Cantata is the latest work of C. F. Tollestrup and will be presented under his direction. The chorus of 25 voices from Raymond and Stirling is accompanied by a 5 piece orchestra with special lighting and scenery.

The crossing of the plains is portrayed in music and drama with the dramatics under the direction of Mrs. Glenn Meeks. H. Myron Holmes is the Reader and scenery and lighting is taken care of by Mrs. Eleanor Hudson. Costumes are under the direction of Mrs. Louis Brantley. The electrical work is under the supervision of Lyle Piegras.

The Wards are presenting this work as a budget program and all over 12 years are welcome.
